Goodbye, winter...

After such a difficult, cold, and snowy winter, it's great to see all the spring leaves and buds coming out! Lawns and Gardens Plus is here to help you make the most of your spring and summer gardens! Give us a call because we'll treat your yard like it's our own!

Summer splash of color...

Call today to reserve your spring and summer flowers. We have a wide variety ready to plant in your garden, but quantities are limited and sizes may vary. We're ready and waiting to deliver them for you!

Edible delectables...

If you are interested in fresh fruits or vegetables, then we are the folks for you! We can hook you up with an edible garden! This doesn't have to be a dedicated space for only consumables; we can intersperse fruit bushes and trees, herbs, anything in and around your yard! Of course, we can also put in a traditional garden for you, too! Whatever you need, L and G Plus is here to make it happen for you!

Party winners...

As always, we want to know if you're having a party so we can make your yard shine for your guests! But have you ever thought about calling us when your neighbor is having a get-together? Pick up the phone and let us know, and we'll show your neighbors' guests what a real yard looks like!

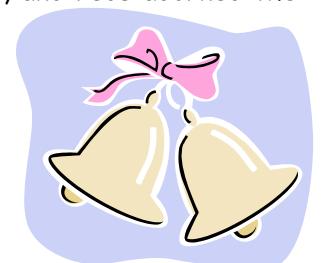

Let's get personal...

We think of our clients as family, so we wanted to tell you about a few things that have been going on in our lives lately.

Thanks to everyone who supported our family during the death of Paula's mother on February 7. Frances Blair will truly be missed. Alzheimer's is a dreadful disease, and we appreciate all your counseling, advice, and encouragement during this difficult time.

On a happier note, our son and dedicated crew leader Scott Atwood got married to Cindy on April 10! It was a beautiful backyard wedding at the Bray house. Pinks, purples, and reds adorned the tulle-wrapped gazebo as we enjoyed dancing, drinking, and merriment! Thanks to everyone for their gifts and well-wishes. We have the best clients ever!

Would you like to receive Kaleidoscope electronically? Great! Just email us at wemows@aol.com!

Garden goings-on...

We're busy with spring touches in the gardens right now—mulching, snipping, cleaning—getting your yard ready for summer.

You'll easily be able to see Paula's touch everywhere as we spruce up each area, making you proud to come home every day!

Change is here...

The Environmental Protection Agency has been issuing a lot of changes lately that affect the landscaping industry. The EPA has been charged with cleaning up the Chesapeake Bay and surrounding areas. This is stuff we've been doing for years, but we wanted to let you know what's going on.

Fertilizer and pesticide broadcasting is the major focus of these changes. Permits are voluntary now, but will probably become mandatory for the Chesapeake Bay Buffer Zone—anywhere within 100 square feet of the Bay and its tributaries. More fees and regulations are soon to come.

The good news? We are definitely ahead of this change and ready to go! We are already licensed and certified, and we promise that we are the best people for the job! If you have more questions or concerns, check out our website at www.LandGPlus.com or ask one of us! That's why we're here!

Training and certification...

We continue to educate ourselves on various topics that will help us serve you better. Here are a couple of highlights...

- We are Virginia Certified Pesticide Applicators.
- We have two Virginia Certified Horticulturists on staff.
- We are certified in Fertilizer and lime application.
- We are Virginia Certified Nutrient Management Planners—category of Turf and Landscape.

There's lots more to this that we can cover here. Click on www.LandGPlus.com to find out more about what we're doing to stay current in the industry.

Need to talk to us? Give us a holler! We're here to help...
