## What's new...

We have big news! Lawns and Gardens Plus has gone digital! In this edition of Kaleidoscope, you'll see references to our new website, [www.LandGplus.com](http://www.LandGplus.com) where you can get a slew of information about our top-notch service. So go check us out on the web. Happy Clicking!

## Life's little pleasures...

The recent economic climate has affected everyone, and we at L and G Plus understand. Paula will tell you, "Flowers make everyone happy!" Pat, one of our loyal customers, once said we should change our name to "smile when you come home." People's homes are usually their biggest investment, and everyone is spending more time there now. Instead of a vacation or dinner out, why not enhance your biggest investment? We can hook you up with lots of great projects you may not have thought about. Delicious summer salads can be yours with our vegetable gardening service. Natural stone patios can help you enjoy your time at home more as you sip your cocktail in your beautiful L and G Plus garden.

## Always green...

We were green long before it was in vogue, and we continue our commitment to environmental stewardship. Last year, we started an organic program which utilizes natural fertilizers. This, of course, involves earthy smells, so if you're planning a gathering anytime soon, please let us know. Weddings, parties, celebrations—anything! We want your friends to ask who your landscaper is.

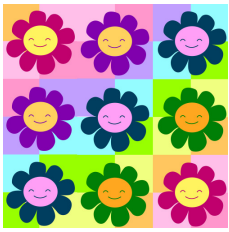

## Staff additions...

Offering you quality work equates to our hiring quality people. We'd like to announce three additions to our staff...

- **Jacob Whitehurst** joined us as a full time turf technician. This now brings us up to ten full time employees.
- Ever wondered who puts together this newsletter? **John M. Merritt** is the man behind the desktop magic.
- Finally, in our quest to better serve you, we have **Dave Renfro** of Matchbook Marketing. He designed our brand new website, [www.LandGplus.com](http://www.LandGplus.com).

**In the garden...**

Right now, we're busy with spring cleaning and mulching, and generally getting your gardens ready for the joys of summer. If you'd like a splash of color in your beds, let us know. We're taking orders for annuals—just the touch to make your yard sparkle! Selection and quantities are limited, so give us a call, and we'll be right out with flowers that will make you smile!

**Training time...**

Anyone who works with pesticides should have the proper credentials to do so. Recently, we have been taking care of recertification in this area, making sure that we keep up with federal and state regulations. As professionals, we do all the right things. We complete soil testing, and we distribute your pesticides with properly calibrated equipment. Not only does this make your garden beautiful, but we also keep Mother Nature happy in the process!

**On the turf...**

Dandelions, buttercups, and clover can be your lawn's enemy. Green, weed-free grass is a top-priority for many of our customers. As a result, we have teamed up with Chris and Craig Zeigler of Agronomic Lawn Management. They are doing all our weed spraying

of the turf. This is included with your service and is just another reason you can always count on L and G Plus to meet your needs.

**Service highlights...**

Interested in learning more about exactly what we can offer you? Bio retention basins, beautiful stone hardscapes, rose gardens—you name it, and we probably do it!

Log on to [www.LandGplus.com](http://www.LandGplus.com) and click on the "services" tab to see everything we can do for you and your curb appeal.
